

ABiS International Mini-Symposium

Cutting-Edge Microscopy

Valentin Nagerl

(Bordeaux University)

Structural basis of astrocytic calcium signals
at tripartite synapses revealed by STED microscopy

Ryohei Yasuda

(Max Planck Florida Institute)

Biochemical mechanisms underlying synaptic,
circuit and behavioral plasticity

Tomomi Nemoto

(Hokkaido University)

Improvement in two-photon microscopy
utilizing novel optical techniques

2019 July 17th, 13:00-16:30

Okazaki Conference Center, Okazaki, Japan
